AIR SCOTLAND VIRTUAL – NOTAM FOPS30092025

COMMENCEMENT OF WINTER OPERATIONS

Dear members,

Between the hours of 0900 - 1000 BST, on 30/09/2025 the Operations Team are going to be uploading a major update to our routing system. We ask that ALL PILOTS DO NOT fly during these hours due to possible issues with the record and scoring systems for live flights. Users can expect a complete change to both the flight number and callsign systems alongside the much-anticipated winter routes.

Thank you for your co-operation during these times.

Lewis S
EUS/SCO Operations Manager

Below message from Connor Sullivan – EUS0001

I just wanted to mention that we have decided to introduce our winter operations a little earlier than the planned 01/10/2025. This is to minimise any potential glitches but also to allow a review by the staff team due to the complexity and size of this project. Our Flight Ops team having been working tirelessly over the last few months on this project and we cannot wait to share it with you.

We have decided on 01/10/2025 to remove our seasonal summer rotations completely to mirror what real world operators do. This then makes way for a winter operation with those seasonal destinations such as Rovaniemi in Lapland, alongside additional routes across Norway, Denmark, Germany and Poland. We are also excited to include additional long-haul rotations to Egypt and Cape Verde. We plan to expand our long-haul services as the winter season progresses.

We are cautious this is a bold move as some of you may wish to operate to the seasonal summer destinations. For this reason, we have decided to try our winter programme which will work in conjunction with our permanent domestic operation and are prepared to inject the summer programme all year round if this were something our members would like. So, we can gauge the success of our winter operations programme and get a feel for what our members want, we invite you to provide feedback regularly via the appropriate Discord channels.

We look forward to sharing our new route update with you all.

Kind regards

Connor Sullivan
